

String together

Jody loves pretty patterns.

Help Jody string the beads so the colours are in the right order. Follow the pattern and colour in the blank shapes.

Remember to practise your patterns.

Count the number of beads.

1. There are yellow beads altogether.
2. There are round beads altogether.
3. There are green beads altogether.
4. Now draw a circle around each pattern of three beads.

How many patterns are there?
